NATOMA TECHNOLOGIES CELEBRATES 15 YEARS AS A TRUSTED PARTNER TO THE STATE OF CALIFORNIA

SACRAMENTO, CALIFORNIA (May 20, 2013) – Natoma Technologies, Inc., an innovative provider of information technology and software services, is celebrating 15-years of growth and profitability as a trusted partner to the state of California. To commemorate, Natoma Technologies is hosting an anniversary celebration in the courtyard of their corporate headquarters in downtown Sacramento on May 23rd, 2013. Guests include members of the business community, community leaders, local and state dignitaries and members of the press.

Natoma is a recognized leader for successful delivery of mission-critical IT solutions for multiple state agencies and departments including the first Java-based system in California state government, the first Service-Oriented Architecture (SOA) system in production for a California Health Agency, the first statewide enterprise system linking California Ports to state systems as part of the Ports of Los Angeles and Long Beach Clean Truck Program reducing air pollution from harbor trucks by nearly 80 percent, and for innovation in Fraud Detection as a Service for various government programs.

"Natoma believes public funds are too precious and the needs too great to accept the failures that plague our industry," says Natoma's President and CEO, Marty McGartland, "In 15 years, Natoma has achieved 100% success on all our projects."

Natoma's clients, technology business partners, state agency executives, State of California and City of Sacramento elected officials will gather for this event at Natoma's corporate headquarters located at 455 Capitol Mall in Sacramento to celebrate the

company's successful 15-year history and current expansion into the federal marketplace, as well as nationwide expansion of Natoma's Fraud Detection as a Service nationwide.

####
